Education

New Mexico State University

PhD in Computer Science

May 2027 (expected)

Las Cruces, NM

Focus: Machine Learning, Data Mining, and Large Language Models.

New Mexico State University

MSc in Computer Science

May 2025

Las Cruces, NM

Project: Leveraging Large Language Models for summarizing ecological drought data.

Multimedia University

MSc in Information Technology

Jan 2023

Melaka, Malaysia

Thesis: Machine Learning based missing value imputation algorithm for big data analytics & IoT.

Rajshahi University of Engineering and Technology

BSc in Computer Science

Mar 2015

Rajshahi, Bangladesh

Technical Skills

Machine Learning: PyTorch, TensorFlow, Keras, Scikit-learn, Pandas, NumPy, Time-series analysis

LLMs & NLP: Hugging Face Transformers, fine-tuning & transfer learning, prompt engineering

Languages: Python, R, SQL (PostgreSQL, MySQL), C#, Java, C++

Tools/Data Viz: Tableau, Docker, Git, Matplotlib, Seaborn, Excel

Professional Experience

Orchid US LLC

Data Science Intern

May 2023 – Aug 2023

Bensalem, PA

- Executed data cleaning and transformation pipelines, specifically handling complex missing value scenarios and merging large-scale datasets.
- Conducted quantitative analysis to derive actionable insights, documenting flowcharts and technical specifications for the team.
- Developed and assisted in the deployment of predictive models to monitor key contributing factors

New Mexico State University

Graduate Research Assistant (Teaching Assistant, selected semesters)

Aug 2021 – Present

Las Cruces, NM

- Conduct research on machine learning and large language models, including leveraging LLMs to summarize ecological drought data and developing a class-wise mean deviation method for feature selection (published at ICMLA 2025).
- Collaborate on interdisciplinary research, contributing ML-based feature extraction and refinement techniques to automated lunar crater detection (published in *Aerospace*, 2026).
- Served as Teaching Assistant for selected semesters: delivered lectures and ran lab sessions for "Applied Machine Learning I," "Introduction to Data Mining," and "Artificial Intelligence I," covering algorithmic implementation, statistical evaluation, and core AI concepts.
- Mentored undergraduate and graduate students in "Data Structures and Algorithms" labs to strengthen foundational coding logic.

Platsera Sdn. Bhd

Game Programmer

Oct 2015 – Feb 2020

Cyberjaya, Malaysia

- Led full-cycle development for mobile applications, achieving over 1 million cumulative downloads.
- Implemented monetization strategies that increased user retention by more than 10%.

Selected Publications

- Fuad Ahmad and Md. Zaman: A Comprehensive Review of Transfer Learning Techniques for Large Language Models. *Machine Learning* (Springer Nature), 2026 (accepted).
- Fuad Ahmad and Istiaque Ahmed: nCMD: Benign-Anchored Feature Selection for Imbalanced Network Intrusion Detection, IEEE MILCOM 2026 (accepted).
- Istiaque Ahmed, Afia Anjum Borsha, Ranat Das Prangon, Abu-Fuad Ahmad and Thi Hong Tran: Reflex-Guard: A Low-Latency Guardrail for LLM Prompt Safety Using Dense Semantic Embeddings, 2026, arXiv:2608.17556.
- Ahmed Elaksher, Islam Omar and Fuad Ahmad: Automated Lunar Crater Detection with Edge-Based Feature Extraction and Robust Ellipse Refinement. *Aerospace* 2026, 13, 62
- Fuad Ahmad, Jiefei Liu, et al.: Feature Selection via Class-wise Mean Deviation, IEEE ICMLA 2025 (main track, acceptance rate 25%)
- Fuad Ahmad, S. Sayeed, et al.: Impact of Missing Values in Machine Learning: A Comprehensive Analysis, 2024, doi: arXiv:2410.08295.
- A Framework for Enhanced Drought Information Communication Using Large Language Models (in preparation).

Awards, Honors & Service

Scholarships: Fully funded PhD scholarship, Priority Analysis Capability Scholarship, ACES Scholarship, Grad Success Scholarship

Hackathon Winner (Category: Finance): Hack NMSU (2026)

Runner Up (Grad): Google Developer Student Clubs Programming Competition (2024)

Program Committee Member: IEEE International Conference on Tools with Artificial Intelligence (ICTAI 2026)

Conference Reviewer: IEEE International Conference on Machine Learning and Applications (ICMLA 2026)

Journal Reviewer: IEEE Transactions on Artificial Intelligence
